

# Anastasios Tzanidakis

DiRAC Postdoctoral Fellow, University of Washington, Department of Astronomy, Seattle, WA

✉ atzanida@uw.edu | <https://andytza.github.io> | 📷 AndyTza

## Education

### University of Washington (UW)

Ph.D. in Astronomy awarded in 2026. Master of Science (MSc) in Astronomy awarded in 2022.

Advisors: [James Davenport](#), [Eric Bellm](#).

Seattle, WA

Sep. 2021 - July 2026

### Columbia University

Bachelor of Arts (BA) in Astronomy. School of General Studies. Advisor: [Kathryn Johnston](#).

New York, NY

Sep. 2016 - May 2019

### LaGuardia Community College, City University of New York (CUNY)

Honors Associate of Science (AS) in Natural Sciences and Mathematics. Advisor: [Allyson Sheffield](#).

Long Island City, NY

Sep. 2013 - May 2016

## Professional Appointments

### DiRAC Institute Postdoctoral Fellow

UNIVERSITY OF WASHINGTON, DEPARTMENT OF ASTRONOMY

Seattle, WA

Sep. 2026 - Present

### Postbaccalaureate Researcher

CALIFORNIA INSTITUTE OF TECHNOLOGY (CALTECH), DEPARTMENT OF ASTRONOMY. RESEARCH STUDENT WITH THE ZWICKY TRANSIENT FACILITY (ZTF) SURVEY AND GROWTH MMA COLLABORATION.

Pasadena, CA

June 2019 - Aug. 2021

### Astronomy Research Intern

NASA AMES RESEARCH CENTER, KEPLER GUEST OBSERVATORY (GO) OFFICE

COLUMBIA UNIVERSITY, DEPARTMENT OF ASTRONOMY

AMERICAN MUSEUM OF NATURAL HISTORY & LA GUARDIA COMMUNITY COLLEGE

Moffett Field, CA • June - Aug. 2018

New York, NY • May 2017 - Sep. 2017

New York, NY • Jan. 2015 - Aug. 2015

## Publications (ADS)

1. **Tzanidakis, A.** and Davenport, J. R. A. *Gaia-GIC-1: An Evolving Catastrophic Planetary Collision*. ApJL 1000 L5, 2026 (arXiv:2603.10952).
2. **Tzanidakis, A.**, Davenport, J. R. A. et al. *A Systematic Search for Main-sequence Dipper Stars Using the Zwicky Transient Facility*. ApJ, 991, 118, 2025 (arXiv:2508.03964).
3. **Tzanidakis, A.**, Davenport, J. R. A., Bellm, E. C., and Wang, Y. *Gaia17bpp: A Giant Star with the Deepest and Longest Known Dimming Event*. ApJ, 955, 69, 2023 (arXiv:2306.12409).

## Awards & Grants

### Eclipsing Disks in the Galactic Bulge Time-Domain Survey (co-I: A. Tzanidakis)

Roman Space Telescope Cycle 1.

June, 2026

### Caltech Presidential Postdoctoral Fellowship

Awarded California Institute of Technology Presidential Postdoctoral Fellowship (declined offer).

April, 2026

### Research University Alliance (RUA) Research Exchange Travel Award

Awarded research exchange travel award of \$3,000.

June, 2025

### University of Washington Excellence in Teaching Award

2025 Excellence in Teaching Award Finalist.

May, 2025

### Beyond the Stars: Launching the First Interdisciplinary Technologies at the UW Planetarium (Principal Investigator)

**Awarded \$73,00 University of Washington Student Technology Fund** for technological updates at the UW Planetarium for expanding educational capabilities and visualization standards.

Feb., 2025

### Optical Technosignatures in Large Surveys (Co-I: A. Tzanidakis)

Breakthrough Listen Foundation, 2025.

June, 2025

### UW Astronomy Graduate Student Award of Outstanding Leadership and Service

Awarded \$1,000 for outstanding contributions to public service and leadership.

Oct., 2024

### Astronomy around the Clock: UW Student Technology Fund (Co-PI)

**Awarded \$14,000 UW Student Technology Fund** for solar telescope and observing equipment for public outreach.

June, 2023

### Jacobsen Fund Support for the Discovery of Gaia17bpp

Awarded \$2,500 for partial publication costs for Gaia17bpp research paper published to *ApJ*.

June, 2022

### CUNY Research Scholar Fellow & Highlighted Research Scholar

Research fellow at LaGuardia Community College, City University of New York (CUNY).

2015 - 2016

## Teaching

### Graduate Student Teaching Assistant and Co-Lead Study Abroad Program: Pacific Indigenous Astrophysics Program

O'ahu, HI

Co-led study abroad Pacific Indigenous Astrophysics program, organizing student events; managed and mentored a 20-student cohort in a dynamic field setting (engagement, community-building, logistics); served as TA bridging contemporary astrophysics with Pacific Indigenous wayfinding; participated and assisted with co-organizing 4 public community events for professional development and community organizing.

Aug. 2025 - Sep. 2025

### Graduate Student Teaching Assistant of Astronomy

Seattle, WA

Graduate teaching assistant supporting introductory and upper-level undergraduate astronomy courses and science outreach programs. Conducted discussion sections, provided individualized student support, managed grading, and assisted teaching faculty across diverse course offerings: ASTR-150 (planetary science, 2 quarters), ASTR-360 (stellar astrophysics, 1 quarter), ASTR-270 (astronomy public outreach, 3 quarters), and ASTR-567 (Pacific Indigenous Astrophysics, 2 quarters).

Sep. 2021 - Sep. 2025

### Astronomy Ambassador Program (AAP) Fellow, American Astronomical Society

Online

Selected for professional development program training early-career astronomers in effective education and public outreach strategies.

Feb., 2022

### Mathematics Lead Tutor and Mentor

Harlem, NY

Columbia University, Tutoring and Learning Center (TLC), Wadleigh Secondary School. Algebra tutoring for middle school students with a focus on numeracy and studying techniques. The role also expanded for 4 months leading a team of mathematics undergraduate tutors.

Sep. 2016 - Sep. 2017

## Observing

---

### **Spectroscopic Follow-up of the Aftermath of an Planetary Giant Impact Collision (PI)**

Awarded 1 hrs on Gemini N 2026B observing cycle.

Instruments: Gemini N (GMOS)

### **Planetary Collision Candidate (PI; Director's Discretionary Time)**

Awarded 1.2 hrs on The Southern African Large Telescope (SALT).

Instruments: Robert Stobie Spectrograph (RSS)

### **Characterizing Main-Sequence Dipper Stars (PI)**

Awarded 4 hrs on the Southern Astrophysical Research (SOAR) 4.1-meter Telescope.

Instruments: Goodman Spectrograph

### **Radial Velocity TESS Exoplanet Host HIP 23309 (Co-I: A. Tzanidakis)**

Awarded 8 hours on SMARTS-GSU 1.5m.

Instruments: CHIRON

### **Characterization of Deep Stellar Eclipses in Gaia Photometric Alerts (PI)**

Apache Point Observatory (APO), ARC 3.5m.

Instruments used: KOSMOS, ARCTIC

### **Supernovae Classification for the ZTF Survey (Co-I: A. Tzanidakis)**

Hale 200-inch Telescope, Palomar Observatory.

Instruments: DBSP, WIRC

### **AGN Variability with Kepler/K2 (PI; Director's Discretionary Time)**

Kepler Space Telescope/K2, Campaign 30.

## Outreach and Leadership

---

### **Director of the University of Washington Planetarium**

Seattle, WA

Directed and organized over 900+ free planetarium shows, engaging the greater Seattle community, with an annual visit rate of over 4,000 participants. Each year, I directed 30 active undergraduate and graduate volunteers at the UW Planetarium. My role includes the active facilitation of science communication resources for planetarium presenters and programs to strengthen the communication skills of the planetarium presenters. Responsibilities have also expanded to forge valuable partnerships within the broader UW community and other departments, leveraging the UW planetarium space to promote workshops on art, wellness, physical health, history, and culture.

Sep. 2022 - Aug. 2025

### **DiRAC Summer Undergraduate Research Mentor**

Seattle, WA

Proposed, and **awarded \$8,000 for research funds** to support undergraduate students. Supervised undergraduate student research on behalf of the DiRAC institute.

Summer 2023, 2024

### **Pre-Major in Astronomy Undergraduate Research Mentor**

Seattle, WA

2-month long research mentoring undergraduate freshman-sophomore students at the University of Washington.

2023, 2024, 2025

### **Founder of Astronomy Podcast: StarBites**

Sep. 2017 - May 2019

Developed an undergraduate astronomy podcast with colleagues at Columbia University. StarBites successfully bridged and provided a safe space for our undergraduate student community to practice science communication and learn about the history of astronomy by developing unique and compelling science history stories.

### **President of Physics and Astronomy Club, LaGuardia Community College**

Long Island City, NY

Founded and led undergraduate physics organization with 10+ members.

2015-2016

## Highlighted Talks & Posters

---

### Invited Seminars

#### **A Photometric Census of Main-Sequence Dipper Stars: Clues and Phenomenology**

Coffee Talk, University of Hawai'i at Mānoa Institute for Astronomy, HI, 2025 (Talk)

Young Stars Reading Group, California Institute of Technology, CA, 2025 (Talk)

Pizza Lunch Seminar Series, Michigan State University, MI, 2025 (Talk)

Stars and Planets Group, University of Michigan, MI, 2025 (Talk)

### Conference Presentations & Posters

#### **Dipper Stars as Tracers of Catastrophic Planet Collisions**

Debris Disks Connections, University of Cambridge, July, 2026

## Discovery of Extreme Dimming Stars with Time-Domain Surveys

American Astronomical Society, 247 Winter Meeting, Phoenix, AZ, 2026 ([Dissertation Talk](#))

## A Systematic Search for Main-Sequence Dipper Stars using the Zwicky Transient Facility

American Astronomical Society Winter Meeting 245, MD, 2025 (Poster)

LSST Interdisciplinary Network for Collaboration and Computing (LINCC) Tech Talk, 2024 (Talk)

NOIRLab Rare Gems in Big Data Conference, Tucson, AZ, 2024 (Talk)

Hotwiring the Transient Universe VI, Toronto, CA, 2024 (Talk)

LINCC Frameworks University of Washington Lunch Talk, WA, 2024 (Talk)

## Discovery of the Deepest and Largest Known Giant Blinking Star: Gaia17bpp

American Astronomical Society Meeting 241, Washington DC, 2023 (Press Release & Talk)

Institute for Data Intensive Research in Astrophysics and Cosmology (DiRAC) Lunch Talk, 2023 (Talk)

## ZTF Census of the Local Universe: Luminosity Function of Type II Supernovae

National Science Foundation, Site Visit for ZTF-II, 2024 (Talk)

American Astronomical Society Meeting 237, 2021 (Talk)

## Probing the Dynamic Evolution of the Milky Way Using Stellar Substructures

Senior Thesis – Astronomy Seminar, Columbia University, NY, 2019 (Talk)

American Astronomical Society (AAS), Meeting 233, 2019 (Poster)

American Astronomical Society (AAS), Meeting 232, 2018 (Poster)

National Collegiate Research Conference, Harvard University, 2017 (Poster)

CUNY Research Scholars Annual Research Symposium, John Jay College, NY, 2016 (Talk)

## New Tools for AGN Photometry with Kepler GO Python Package `lightkurve`

NASA Intern Poster Symposium, NASA Ames Research Center, CA, 2018 (Poster)

## Origin of Diffuse Stellar Clouds in the Milky Way: In-situ or Accreted?

CUNY Research Scholars Annual Research Symposium, John Jay College, NY, 2016 (Talk)

AMNH Summer Student Research Presentations, American Museum of Natural History, NY, 2016 (Poster)

## Outreach Talks

### Searching for Mysterious Stellar Eclipses in the Milky Way

Astronomy on Tap Roadshow, Singlehill Brewery, Yakima, WA, 2025 (Talk)

Astronomy on Tap, Bickerson Brewery, Seattle, WA, 2025 (Talk)

Smarty Pints, Burke-Gilman Brewing, Seattle, WA, 2025 (Talk)

Seattle Astronomical Society (SAS), February, 2024 (Talk)

## Interstellar Insights: SETI Experts on the Hunt for Truth Amidst Misinformation

Emerald City Comic Con, Panelist, March, 2024

## Introduction to Astronomy Outreach with Social Media

Dot-Astronomy-12, Flatiron Institute, New York, 2023 (Talk)

## Cosmic Cinematography with the Vera C. Rubin Observatory

Astronomy on Tap, Peddler Brewing, February, 2022 (Talk)

# Student Mentorship

---

**Maren Wilson, Daniel Zhang** undergraduates at the University of Washington (UW), studying the photometric properties of a ZTF-TESS main-sequence dipper star as part of the Pre-MAP program (*present*). **Teao Kim**: UW senior undergraduate, studying long-term photometric modulations of Spitzer debris disk systems (*present*).

**Cassidy Johnson**: UW junior undergraduate, studying photometric modeling of a disk-eclipse main-sequence dipper system (*present*). Presenting results at AAS 247. **Giovanni Gollotti**: Senior undergraduate at UW (now Astronomy MS at CUNY Graduate Center). Characterization of a Young Dipper Star Discovered in TESS: HIP 23309. Co-advised with Tobin Wainer and James Davenport. **AAS 245 Chambliss award winner**. (2024-Present).

**Annika Meunier**: UW senior with the Honors Program of Interdisciplinary Studies. Developing strategic social media outreach content for UW Astronomy and UW Planetarium (2025). **Celeste Hagee** Senior undergraduate at UW (now astronomy Ph.D. at UC Irvine), building an empirical response function for the epochal BP/RP spectra from the Gaia Photometric Science Alerts using SN Ia. **DiRAC summer prize winner** (2023-2024).

**Elizabeth Pawelka, Miguel Morales, Emma Bacarra**: Freshman undergraduates at UW as part of the Pre-Major in Astronomy Program (Pre-MAP). Co-advised with Tom Wagg. Searching for signatures of black-hole self-lensing candidates with TESS (2022). **Hinna Shivkumar**: Master's student at the University of Amsterdam (now Ph.D. at the University of Amsterdam). Analysis on SN2019wxt – an ultra-stripped supernova candidate observations from GROWTH and ZTF (2019-2020).

# Community Organizing & Service

---

## Exploring Planetary Systems in the Era of Time-domain Astronomy (EPS-ETA '26)

Member and co-organizer of the Scientific Organizing Committee.

*Institute for Astronomy, O'ahu*

*June, 2026*

## Department of Astronomy, Space Allocation Committee

Graduate student representative for space allocation for the University of Washington Department of Astronomy for graduate student community engagement and research.

*Seattle, WA*

*Feb. 2025 - Present*

## Professional Development 'Aina-based STEM Educator Day

Led an embodied-learning teaching strategy station on celestial dynamics and sky navigation; served on the organizing team, shaping program organizing and structure.

*Wai'anae, O'ahu*

*Aug., 2025*

## UW Astronomy Gaia DR3 Data Sprint

Principal organizer and developer of the coding splinter focusing on Gaia DR3 data products. Facilitated collaboration across departments at the University of Washington.

*Seattle, WA*

*Feb., 2024*

## Columbia University GitHub MLH Astronomy Hackathon

Organizer and primary facilitator for MLH GitHub hackathons. Focused on open-source visualizations for astronomical data among undergraduate students.

*New York, NY*

*March, 2018*
